

CHAPTER 23
WATER SOURCE PROTECTION AREAS

10-23-6: PROHIBITED USES:

The following uses or conditions shall be and are hereby prohibited within drinking water source protection zones, whether or not such use or condition may otherwise be ordinarily included as a part of a use permitted under section [10-23-7](#) of this chapter:

A. Zone One: The location of "potential contamination sources", as defined in section [10-23-3](#) of this chapter, unless they are controlled with design standards.

B. Zone Two: The location of "pollution sources", as defined in section [10-23-3](#) of this chapter, unless their contaminated discharges are controlled with design standards; provided, however, that a person may use or store a pollution source or potential contamination source within zone two under the following conditions:

1. No Reportable Quantities: If the pollution source or potential contamination source is a hazardous substance, the amount of the pollution source or potential contamination source does not exceed the reportable quantity for that substance listed in 40 CFR 302.4, as amended; and
2. Management Plan: The person implements a management plan that incorporates best management practices approved by the PWSA that is designed to ensure that the pollution source and/or potential contamination source will not be spilled or released in a manner that may potentially contaminate ground water. (Ord. 2004-844-O, 3-2-2004)
